

TODAY VS. TOMORROW

Between 8 and 10 million tons of plastic waste flood the world's oceans every year. If this situation continues, well before 2050 there will probably be more waste in the water than fish.

Trees continue to disappear because of forest fires or deforestation. The forest floor needs many years to fully regenerate after deforestation. After a fire, this can even take decades. Illegal hunting has brought many animal species to the brink of extinction because their tusks, horns, hides, bones, meat and other body parts are often much sought after on the black market.

According to UN researchers, approximately 1 million animal and plant species are at risk of extinction.

FOR YOU. FOR US. FOR EVERYONE.

We want our world to continue to still be beautiful in the future. To this end we have set up the "SANUSPLANET – we ♥ nature" initiative. With this brand we offer products that contribute to the preservation of the environment.

When you buy the **MY WATER BOTTLE** you say "NO!" to even more plastic and "YES!" to the protection of our environment! If you decide to buy it, we say, on behalf of the environment, a warm "we-♥-nature" thank you!

What we do today decides what the world of tomorrow will be like.

Marie von Ebner-Eschenbach

10 REASONS TO SAY "YES" TO THE MY WATER BOTTLE

1. Reusable glass bottle, made from sustainable materials such as borosilicate glass and FSC® bamboo
2. Held in a shockproof, OEKO TEX® certified protective fabric cover, consisting of 70% hemp and 30% recycled polyester
3. Buy once, use always and save money forever
4. Comfortable to carry, easy to use
5. For leak-proof transport of water
6. For a clean environment, for less plastic
7. Dishwasher safe (except cap)
8. With an integrated "E-SMOG-PROTECTED" plate by memon® bionic instruments GmbH
9. Use of the free SANUSMAP-APP including the "Drinking water points finder" function
10. To send a signal. To protect the planet. To change the world.

THE PROJECTS

MY WATER BOTTLE is a product of the SANUSPLANET initiative.

With the purchase of each of these high-quality glass bottles, **three (3) euros** automatically go to the SANUSPLANET-POOL.

We use these proceeds to support selected environmental protection organizations committed to protecting flora and fauna, preserving culture and customs, as well as promoting human rights.

„We plant trees. We clean the seas. We save animals.“
This is our motto!

The ongoing projects:
Acción Ecológica, Plant-for-the-Planet, Project HIU

THE MAP

With the purchase of the MY WATER BOTTLE you will also be given access to the SANUSMAP-APP.

This is an online cartographic service equipped with several filters specially developed by SANUSLIFE.

The purpose of this map is to show you all the drinking water points in your area so that you can always refill your MY WATER BOTTLE with fresh drinking water.

And if you register as a FREE User, you can actively participate in the project in various ways, for example:

- by entering drinking water points with the GPS function
- by making comments on those drinking water points that are already registered
- by getting to know other water enthusiasts and exchanging information with them

More information about the SANUSMAP APP is also available on sanusplanet.com.

Are you an entrepreneur who would like to be discovered by completely new target groups?

Then become a MAP Partner! It makes no difference if you just want to appear on the map, if you want to be a reseller of SANUSPLANET products and/or if you also want to become a SANUSCOIN acceptance point. You decide for yourself!

On sanuscompanies.com you can discover many more benefits and also register immediately as a MAP Partner!
